

AMERICAN WOMEN PLAN DRIVE FOR GREATER FREEDOM

20th Amendment To Give
Equal Sex Rights Be-
fore All Courts.

CLAIM PRESIDENT FAVORS MOVEMENT

Suffrage Leaders Prepare
To Carry Their Fight
Through Congress.

Washington, May 11.—Proud of
their victorious fight for suffrage,
America's womanhood today is plan-
ning a new nation-wide campaign for
additional freedom through the enact-
ment of the twentieth amendment to
the constitution providing "equal sex
rights" before all courts of law.

The movement was revealed by
Miss Alice Paul, national suffrage
leader, in answer to the suffrage
views expressed by Premier Mussolini
of Italy.

Miss Paul, who termed Italian wom-
en "down-trodden," declared the
women of America soon will lead the
world in their national freedom.

The fight for enactment of the
amendment, it was stated, will be
carried on at a national convention to
be held July 26 and 27 in Seneca
Park, N. Y. A tentative draft of the
amendment now reads:

"No distinction between the rights
of men and women shall exist in the
United States or any place subject
to its jurisdiction."

The movement, it was said, already
has been approved by President Har-
ding, at a conference between the ex-
ecutive and suffrage leaders, the
president was reported to have said:
"It is a very worthy cause."

Fight In Congress:
Suffrage leaders declared the con-
gressional fight for its enactment
would be led by Sen. Curtis, of Kan-
sas, Republican while in the senate,
and Sen. Fess, of Ohio, Republican.
They predict its passage in the next
congress, after which it will be car-
ried to the states for ratification.

If adopted the amendment would
give women equal rights with men
under the inheritance, homestead,
property, domicile and divorce laws.
It would permit married women to
maintain their own homes, places of
residence, to share their husband's
property, but would also make them
equally liable for support of their
families.

While enthusiasm over the prospect
for increased freedom for American
women, Miss Paul hailed with a sat-
isfaction Premier Mussolini's declar-
ation that Italian women soon will
get municipal suffrage.

Taking issue with the premier, who
declared women "followed men in
voting," Miss Paul declared:

"American women vote themselves.
In 1924, you will see women partici-
pating in the national election to the
extent that their voices will be heard
in the selection of candidates, the
adoption of platforms and in the
result of the election."

OVERLOADS TRUCK, JUDGE FINES HIM

Coal Dealer First To Be
Caught In Trap Set
By Deputy.

Lisbon, May 11.—Deputy C. E. Rol-
lins, who has charge of the road pa-
trol, to keep trucks within the local
limit of 10 tons, arrested M. G. Martin
yesterday afternoon and brought him
to Lisbon where he was fined \$25 and
costs by Judge Riddle after the officer
had exhibited his weights.

Martin is a coal dealer in East Liv-
erpool and was making a delivery in
the East End when stopped by Deputy
Rollins. The load and truck
weighed 22,400 pounds which was
about a ton and a quarter over the
limit placed for improved roads.

Martin told the court that it would
not be possible for him to make a
living if he was not allowed to haul
loads of this size and asked for the
indulgence of the court.

This was denied him by Judge Rid-
dle who stated that he had it from
good authority that he had been a
persistent offender and that he was
responsible for a great deal of the
complaint for overloading.

DIVORCE GRANTED IN SALEM CASES

Because his wife left him three
years ago and refused to return,
Harman Reeves, of Salem, was
granted a divorce from Stella Reeves
on the ground of willful absence by
Judge Moore Friday. The parties
were married in 1916. The wife is
living in Cleveland.

Mrs. Mary A. Callahan, of Salem,
was granted a divorce from Jesse
Callahan, after she had testified to
the fact that from the time of her
marriage, four years ago, the defend-
ant had failed to provide and defend-
ed her to support the family. Calla-
han left her more than three years
ago, and has not lived with her
since she charged.

Moon Only Eighty Days Away If You Fly Fast Enough

Bourges, France, May 11.—
Prospective tourists to the moon
may now make their plans.

Abbe Thomas Moreaux, direc-
tor of the famous Bourges obser-
vatory, has just discovered, after
many observations, that the moon
is really a suburb of the earth.
Instead of being 384,400 kilometers
away the earth's satellite is real-
ly only 384,282 kilometers away. The
trip to the moon is thus shortened by
approximately 75 miles.

An aviator, flying at an average
speed of 125 miles an hour and
never stopping could reach the
moon in 80 days of flying, Abbe
Moreaux says. Furthermore, a pro-
jectile fired into the air at an
initial velocity of eight miles per
second never will return to the
earth and, if projected in just the
right direction, may reach the
moon.

MINER IS CAUGHT BY FALL OF SLATE AT PASCOLA MINE

Frank Coy's Leg Fractured
And Body Bruised In
Accident Friday.

Caught in a fall of slate in a mine
of the Pascola Coal company on the
Washingtonville rd shortly after 5
a. m. Friday, Frank Coy, aged about
50, of Washingtonville, sustained a
compound fracture of the right leg
and severe body bruises.

His condition is not regarded as
being serious.

Coy was working in his room at the
mine when the accident occurred. He
had been working in the bank for
some time and without warning, por-
tions of the ceiling caved in. Coy was
caught by the fall of slate and por-
tions of his body were buried beneath
the debris.

Prompt work by Fred Oesch, fore-
man at the mine, and other work-
men, resulted in Coy's release from
beneath the slate. He was taken to
the City hospital in the Stark am-
bulance. Examinations disclosed a
fractured right leg and bruises about
the body. An X-ray examination will
be made to determine the possibility
of internal injuries.

That Coy was not killed by the
heavy fall of slate was declared to
be miraculous by those who witnessed
the accident. The debris covered the
lower half of the man's body and had
been working another foot closer
to the wall, workmen believe he
would have been killed.

The cave-in is thought to have been
caused by the recent rains and cold
weather, followed by a sudden thaw.

Salem Boy, Aged 7, Becomes Motion Picture Actor

Appears In First Picture,
Being Registered For
Comedy And Drama.

Introducing Salem's first motion
picture star—Wilbur Vaughn Thomas,
Jr., aged 7.

Vaughn, as this charming little fel-
low is called, is the son of Mr. and
Mrs. Wilbur V. Thomas of Ocean
Park, Calif., formerly of Salem. He is
registered with the William Fox Pro-

and appeared in his first picture last

Under Director Joseph Cruze, he
took part in the filming of a Para-
mount picture and appeared to such
advantage that his future as a mo-
tion picture actor is assured. Pro-
ducers declare that Vaughn is a coun-
terpart for Jackie Coogan, famous
boy screen actor, and the picture to
be made in one part of his first film, is
proof that there is a resemblance.

Vaughn's popularity was attested
to last Monday when he appeared in
the annual Floral parade at Ocean
Park. He was dressed in full even-
ing suit and danced with a little girl
on one of the large floats all through
the parade.

The lad is a grandson of Mr. and
Mrs. W. B. Thomas of McKinley ave.
His mother was formerly Miss Ruth

mecca for students and adults from
all parts of the county, from 10
o'clock Saturday morning until nearly
dusk in the evening.

The meet this year is expected to
attract one of the largest crowds ever
drawn to the county classics because
of the caliber of material that will

Seven schools will be represented
this year. Athletes representing Sa-

RADIO OPERATORS MUST ASSIST IN ALL EMERGENCIES

One Broadcasting Operator
Must Be On Duty At
Every Station.

HOOVER ANNOUNCES NEW REGULATIONS

Loss Of License And Fine
Provided For Failure To
Obey Rules.

Washington, May 11.—Looking to
protection of every locality of the
United States in cases of storms,
hoods or other grave emergencies,
Secretary of Commerce Hoover an-
nounced today radio regulations
which provide that one or more op-
erators must be on duty at all hours
in broadcasting stations holding com-
mercial first-class licenses.

Continuous watch must be main-
tained and operators are required to
render any assistance possible in
emergencies, supplementing existing
public communication facilities that
may be temporarily interrupted.
Under this regulation land radio as-
sumes the same importance in the
protection of life and property as
does wireless on the high seas.

The radio, officials said, has passed
from the experimental and "jazz-
mania" stage to that of a great pub-
lic institution.

Stations failing to meet the new
requirements will suffer loss of li-
censes.

All recommendations adopted by
the second national radio conference
have been incorporated into regula-
tion by Secretary Hoover, acting
under the flexible provisions of the
radio act of 1912.

Violations Reported

Violations of the law have been re-
ported from west, south and east
coast points where broadcasting sta-
tions are alleged to be using more
power than is necessary in carrying
out communications. Only in case of
signals or radiograms relating to ves-
sels in distress is unlimited power
permitted. Fines up to \$100 and loss
of license are provided as penalties.

The new wave lengths adopted by
the radio conference will go into ef-
fect at noon May 15. Warning was
issued today that the new wave
lengths must not be used for broad-
casting prior to that date. Radio in-
spectors will notify owners of all
licensed class B stations to the wave
lengths assigned for their locality.

Beginning May 15, the inspectors
in each district will check the trans-
mitting wave lengths of stations by
personal inspection and by listening
in with accurately calibrated recep-
ters.

DR. CONRAD ADMITS MARTIN IS DEPUTY PROHIBITION AGENT

Changes Story About Man
Held In Leetonia Jail
For Disturbance.

New developments were reported
Friday in the case of William G. Mar-
tin, of East Liverpool, dry enforce-
ment agent from the court of Mayor
A. W. Ferren in East Palestine, who
has been held in the Leetonia jail
since Sunday on a charge of drunken-
ness and disorderly conduct, when it
was reported that Dr. S. E. Conrad,
chief deputy of the East Palestine
agents, declared to Mayor W. H. Hoff-
man that Martin was still a deputy,
thus contradicting previous declara-
tion that Martin had been discharged
by him on May 2.

Martin was arrested Sunday night
and fined \$100 and costs on a charge
of drunkenness and raising a dis-
turbance when he attempted to arrest
Joe Dohrigh of Leetonia on a liquor
charge. He was remanded to jail
when he failed to pay the fine and
declared to Mayor Hoffman that he
was employed by Mayor Ferren.

This was denied by the East Pal-
estine officials with the statement
that Martin had been discharged near-
ly one week before that time. Mar-
tin stoutly maintained that he was
employed by the East Palestine court
and as evidence presented a warrant
bearing date of May 4, signed by
Mayor Ferren.

Mayor Hoffman announced that he
would hold Martin until noon Friday
to await action from Mayor Ferren.
It was announced shortly after noon
Friday that Dr. Conrad notified the
Leetonia executive late Thursday
night that "he might as well tell the
truth," that Martin was still a deputy.

The charge of impersonating an offi-
cer will be dropped, it was announc-
ed, but the charge of carrying con-
cealed weapons will be pressed. Mar-
tin will be given a hearing on this
charge late Friday afternoon.

U.S. WILL DEMAND SHOWDOWN WITH CHINA'S LEADERS

Wobbly Peking Government
Breaks Pledges Made
At Washington.

FAILS TO MAINTAIN OPEN DOOR POLICY

China Also Fails To Keep
American Contract
On Wireless.

Washington, May 11.—The United
States is going to have an early
showdown with China as to whether
those now in authority in Peking in-
tend to live up to the agreements
made at the Washington arms con-
ference.

This statement was made in offi-
cial quarters today while Washington
expectantly waited news of the re-
lease of the Americans and other for-
eigners carried off and plundered by
Shantung bandits.

The wobbly government at Peking
has broken definitely two of the
pledges made at Washington, accord-
ing to the American viewpoint,
which already has been presented
with some vigor to the Peking govern-
ment. Oddly enough, it is America
"the great good friend of China,"
that has suffered most in both in-
stances.

China's two plain violations of her
treaty agreements are:

1.—Failure to protect the persons
and properties of foreign residents,
as shown by the Shantung affair, and.

2.—Failure to maintain the "open
door" and "equal economic oppor-
tunity for all nations," as exemplified
in Peking's refusal thus far to go
through with the federal telegraph
company's contract for the erection
of five wireless stations.

Most Serious Violation
Of the two, the American govern-
ment considers the second violation
the most serious, and it is upon this
that Washington is preparing for a
showdown.

Minister Schurman has informed
the Peking government that the United
States considers execution of the
federal wireless contract, held by
Pacific coast interests, to be the
"crucial test" of the open door policy.

The wireless contract was made
with the Chinese government in good
faith, Japan immediately insisted
that this contract violated a prior
agreement which Japanese interests
had with China for exclusive wireless
construction over a period of 30 years.
So great has been the Japanese pres-
sure upon China that those in author-
ity at Peking have thus far failed to
go through with the American con-
tract.

The United States takes the position
that under the "open door" com-
mitments at the Washington con-
ference, no nation can legally possess
monopolistic or priority privileges in
China, either for wireless concessions
or any other business. That is the
crux of the American attitude.

COURT FORECLOSES \$18,232 MORTGAGE

A decree of foreclosure was en-
tered by Judge Moore Friday morn-
ing in the case of Noah Kenreigh
against Andrew and Martha Zeper-
nick, Salem, involving the sum of
\$18,232.89.

The defendants had purchased a
farm of 95 acres on the Newgarden
rd near Salem, from the plaintiff,
and agreed to pay for the same in
regular installments. These were
secured by a mortgage on the farm.
When they were unpaid a petition
was filed, asking that the mortgage
be foreclosed and the property sold
to satisfy the remaining payments
amounting to the sum above.

Stock Market Swindle

HOW MUCH the swindlers netted from their raid on the New York stock market never may be disclosed. So far as ascertained, not one of the forged checks was cashed, and likely the perpetrators of the fraud did not expect to profit in that way. Neither would they expect any broker to buy and deliver on the mere receipt of a check, even though certified, without verification. Developments in regard to that part of the scheme show that no broker did more than buy.

Evidently the purpose of the swindle was to create what may be called "a buyers' panic," on which prices would move up, giving the conspirators a chance to "sell" against the decline certain to follow the exposure of the fraud, which is what the market did. The exposure was made so soon, however, and the time was so brief for the carrying out of what probably was the plot, that it should not be difficult to trace the extensive "short" sellers, who immediately would be under suspicion, at least.

It is certain that the conspirators were acquainted well with brokerage methods of a certain class of market operators. Their judgment in selecting the agents to fill their spurious orders in this instance was bad. Besides, they used an old directory and some of their addresses and the firm names used were wrong. This, too, contributed to their failure to reap in full what they planned to harvest.

There must be a large number involved in the crooked scheme. To prepare the forged checks and the letter heads of so many banks, scattered through a half dozen states, required many hands. To arrange for the mailing of the letters at many different outside points, so as to reach New York simultaneously, required much traveling and many agents, even though a Sunday did intervene.

The energy displayed and the trouble taken were worthy of a better purpose. That the plot did not net something worth while is due to the vigilance of the banks and the caution of a majority of the brokers whom it was sought to inveigle. It is surprising that the market did not respond more than it did to the false orders, having been in a liquidating mood for several days.

U.S. TROOPS MAY STOP CHINESE BANDITS

When Chinese brigands robbed the luxurious train running between Pukow and Tien-Tsin, kidnapping many foreigners, including Miss Lucy Aldrich, daughter of the late Senator Aldrich from Rhode Island and sister-in-law of John D. Rockefeller, Jr., they brought about an international situation which Dr. Jacob Gould Schurmann, American minister to China, described as "very serious." Brigadier-General William D. Connor, commanding the 1,500 American troops in China, was expected to take the field again at the bandits unless the Chinese government acted instantly. Robert P. Scripps, editor of the Scripps-Howard chain of newspapers, was one of those reported kidnapped, but it was learned he was on a later train and escaped.

MOTHER

How Much Do You Really Love Her?

MORE than homage on one day a year—more than gifts and letters and sentiment—is the thoughtful provision of those daily comforts which add to her span of years and express your sincerest devotion.

The Mother crowned with white surely needs electric labor-saving assistance. And the young mother with the two romping children requires that capable electric washer fully as much as the older woman of frailer strength.

If you have a Mother to honor next Sunday—and happy is he who has—consider carefully whether there isn't some burden of home-keeping that electricity would lighten for her.

HARVEY DENIES
PLAN TO RESIGN

New York, May 11.—Ambassador George Harvey, returning to the United States today from the Court of St. James for a leave of absence, said the leave "was not permanent" and that he came to the United States "at his own request."

Told that his recall had been demanded in several quarters and that a Massachusetts legislator had introduced a short lived resolution demanding his forced retirement, Harvey blinked and nodded with the same polite gestures that he might have given any casual bit of news.

"I had not heard that," he replied. Asked directly if he intended to resign, Harvey repeated that he was home on leave of absence.

"Mr. Lasker has invited me to return to England on the Leviathan and I hope to make the trip when the Leviathan sails on July 4. That is all I know about it," he added.

REVEALS \$18,057
IRREGULARITIES IN
VILLAGE'S COURT

Examiner Condemns Liquor Violation Cases In Silver Lake.

Columbus, May 11.—Financial irregularities in the village court of Silver Lake, near Akron, totaling \$18,057.73, were revealed in a report filed with Auditor of State Joseph T. Tracey by State Examiner H. D. Defenbacher and his assistants, Morgan Price and C. W. Booth.

The greater portion of these irregularities, according to the report, was in connection with prosecution of liquor law cases, arising in Akron. Although Silver Lake, six miles from Akron, has a population of only 119, fines and costs assessed—mostly in liquor cases—totaled nearly one-third of a million—to be exact, \$323,856.29, according to the report.

Of this amount assessed, however, \$217,929.15 was suspended. There is a total due in cases committed to jail of \$8,613.65, and a total amount collected of \$59,333.50.

Delinquent fines and costs, the report shows, amount to \$52,974.90.

Costs Main Object

Analyzing this wholesale court business done in the diminutive village, the report declares that "the dockets show approximately 65 per cent of the fines and costs assessed are suspended and of the remaining 35 per cent about one-half was collected."

"It appears," the report continues, "that a considerable effort is made to collect costs but not so much attention is paid to the collection of fines."

Commenting upon the fact that "numerous irregularities" were revealed by the examination of the village books, the examiners stated in their report that, "while the mayor is to be commended in his earnest desire to enforce the Crabbe act, it must be remembered that there are other laws in the statute books of Ohio which have the same weight and are to be just as closely observed as the Crabbe law, and this fact seems to have been little considered in the one absorbing idea of prosecuting persons accused of violating the prohibition law."

PLANTS AND CUT FLOWERS FOR MOTHERS' DAY, AT FAWCETT'S.

COLLEGE PLANNED BY HOMEOPATHICS

Akron, May 11.—The Ohio Homeopathic Medical society, at closing sessions of its annual convention here Thursday, indorsed plans presented for the proposed re-establishment of the Cleveland Homeopathic college, and complete withdrawal of the society from the medical college at Ohio state university.

According to Dr. E. J. Pettit, new president of the state society, the organization has a fund of \$1,500,000 already assured for building purposes, and a special committee will start at once to work upon plans for a new Cleveland Homeopathic hospital and

an adjoining college. The property of the present Homeopathic hospital on Huron rd. has been sold but may still be used for hospital purposes until July, 1924, Dr. Pettit said.

It is the hope of the society, according to Dr. R. A. Buchanan of Lima, retiring president and chairman of the special committee in charge, to secure a site and to break ground in Cleveland possibly this year for the new institution. These plans, however, may be altered and supplanted by a plan to rent a hospital in Cleveland for a few years, and then build later.

The movement indorsed culminates an effort to amalgamate the study of homeopathy with other medical studies at Ohio State university, opposition to which resulted in the practically complete abandonment of the homeopathic college at the state university last fall.

WALK-OVER

It's the work before the shoes are made

that gives Walk-Overs their distinctive style. Careful thought and scientific modeling of lasts come first; for, first of all, Walk-Overs must fit. Long study of artistic lines, sweeping curves, and color harmony is next.

This thought and study reproduced in the finest leathers, by honest workmanship, make a true Walk-Over—a shoe of artistic styling and scientific fitting.

THE BROADCAST

This distinctive example of Walk-Over style supremacy is a blucher oxford of black Hunter Calf, trimmed with saddles of Black Scotch Grain. The one-piece vampis "V" creased from the toe to the top of the tongue. Light lines and correct balance mark it as a man's style shoe of the moment.

Lisbon Notes

Light Standards Assured
The lighting committee of the Kiwanis club reported yesterday afternoon that they had secured 43 of the 46 light standards needed for the new lighting system for the public square and that they would be able to report the whole number taken at the next meeting.

Plans will now go forward for the purchase and erection of the standards. The announcement was received with every evidence of satisfaction by the club members who have been boosting the better lighting campaign for Lisbon for the past two months.

Judge Dismisses Club
Judge W. P. Duncan, was the speaker at the regular Kiwanis club banquet held yesterday noon at the Lisbon hotel. Judge Duncan took for his subject, "Why You Should Make a Will," and proceeded to show how many mistakes are made, and the effort and time necessary for estates to be taken care of through the probate court. He advocated that a short, terse disposition of property by the owner, previous to his death and the filing of the same, in trusty hands was the only proper way for men to leave their affairs.

Mrs. Little Dies
Mrs. Maria Little, aged 85, well known in Lisbon, a sister of the late Captain Nicholas Way, died Wednesday of this week at her home in Sawickley, Pa., following a short illness. Mrs. Way and daughter have left for Sawickley where they will remain until after the funeral.

HOME REMEDIES OF OUR ANCESTORS
Almost every man and woman in America can remember the bittersweet recipes of our mothers and grandmothers for the treatment of disease, and they were wonderfully dependable too. Every fall there were stored away in the attic thoroughwort, pennyroyal, catnip, sage, wormwood, rue, etc., for treating ills of the family during the winter months of the year. In 1873, Lydia E. Pinkham's Vegetable Compound was first prepared from one of these bittersweet recipes, and the demand for it has increased to such an extent that hundreds of tons of roots and herbs are now used annually in its preparation. It has recently been proved that 35 out of every 100 women who try it have been benefited by its use, which is a marvelous record for any medicine to hold.

Persons who want anything know that The News is the Want Medium in this vicinity. So read it.

How to Get Better Milk Prices

Now is the time to feed a real milk producing ration.
By raising the average of your winter milk deliveries with Cow Chow during the winter months you can expect better prices, and more milk accepted in the spring and summer.
The dairy farmer who brings in twenty gallons a day in the winter and then tries to deliver 40 gallons in the summer, gets the regular price for only 20 gallons, and the surplus price for the other twenty.
The dairy farmer who has a big fall and winter production establishes a high average for himself and gets a good price in the spring and summer on grass for as much milk as he made last fall.

Cow Chow now means more winter milk and more summer income.

THOROUGHEDS THREE
THE GIRL—As pure and sweet as a baby's smile, fragrant with daintiness and symbolic of all that makes Kentucky's womanhood revered at home and abroad.

THE BOY—Young, impetuous and with an inherent faith in all mankind; clean-minded, honest almost to a fault; loyal to the point of personal peril.
THE HORSE—Big and upstanding, kindly of eye, fleet as the Blue Grass winds, gentle as the zephyrs, yet as staunch-hearted and as courageous as any jungle beast.

Women's Courage Pleases Brigands, Miss Aldrich Says

Captives Of Chinese Band
Are Treated Kindly
She Asserts.

Salem, May 11. — Miss Lucy Aldrich, sister-in-law of John D. Rockefeller, Jr., who was kidnapped by the Shanghai train bandits and later released, arrived here today with an exciting story of carrying her captives in her hands while driven by the other prisoners towards the mountains. Contrary to the stories of other prisoners, Miss Aldrich said that the brigands treated their captives kindly.

Miss Aldrich was ill from exposure. She was accompanied by a physician on her trip from Tsinan-Fu to this city.

"I was not scared by the bandits," she said. "I had time to hide some money and valuables before we were marched off. I saw about a score of bandits altogether."

(Previous accounts put the number of bandits at about 1,000).

Secrets Jewelry

"I was in my nightgown, as the raid was made at night. I put on my slippers when I heard the noise. There was no harsh treatment so far as I could see. They marched us all night towards the mountains and all that time I held in my hands my mother's rings and other heirlooms of jewelry that I had saved."

The following day (Monday) Miss Aldrich removed one of her slippers and secreted the jewelry in it. This caused her foot to swell. Finally she was able to secret it at a place she believed she would remember.

The bandits in charge of Miss Aldrich and her companion, Miss Minnie McFadden, were attracted by their courage. They took a special liking for Miss Aldrich which may account for the fact that she was later released.

During the halt at camp, the brigands started going over their loot, showing it to Miss Aldrich. It included a woman's hat, a hot water bottle, a tube of tooth paste and numerous other toilet articles. Miss Aldrich laughed heartily, especially when one of the brigands put on the woman's hat and started to caper around in it.

Not to be outdone, others of the bandits donned stolen finery. One of the comedians pointed a pistol at Miss Aldrich, but she was not frightened. She shook her head and continued to laugh. One of the men patted her on the back muttering something. A Chinese who could speak English soon was calling Miss Aldrich a brave woman. They were so taken with her courage that they gave her a burro to ride.

One fat Chinese—a prisoner—was unable to keep up with the procession on the steep mountain trails. The bandits solved this problem quickly and effectively by shooting him before Miss Aldrich's eyes.

Exhaustion Aids Escape
Miss Aldrich became so exhausted that she could hardly sit up. The

brigands saw that she was helpless and when she lagged behind they made no effort to prevent her from escaping. The burro, however, was taken away from her. She wandered all afternoon and night. A storm of rain and hail came up and she took shelter in a hut where she went to sleep. A farmer found her and took her to his home where her feet were bathed in warm water.

She was found by K. F. Naill, an accountant of the Asia Development company, who took her to Lincheng. Thence she was taken to the Tsinan-Fu hospital.

Tinker Says He Could Hardly Dress Himself

Rheumatism And Indigestion Robbed Him Of Strength, Declares Cleveland Citizen—Health Now Restored, He Praises Tanlac In Statement To Public.

"I'm all wrapped up in the subject of Tanlac now, for by means of this treatment my recovery has been simple and inexpensive," states Alfred Tinker, retired moulder, living at 2809 Cedar st., Cleveland, Ohio.

"My stomach was so disordered that everything I ate made me miserable with indigestion, heartburn, bloating and shortness of breath. Nervousness, biliousness, headaches and backaches were among my ailments, and I had rheumatism all through my body so bad I could hardly dress myself. My troubles were certainly treating me rough, and nights sleep was just almost impossible."

"Well, sir, the Tanlac treatment has knocked my troubles a-kiting, and has put me in such splendid condition that, despite my seventy years, I can throw out my chest and step just as lively as I could at forty. When my friends comment on my new health I tell them straight from the shoulder that Tanlac is what put me on my feet."

Tanlac is for sale by all good druggists. Accept no substitute. Over 37-million bottles sold.

Among the new drivers to enter are Harlan Fangler, Herbert Scheel and P. H. Wells.

European aristocracy will vie for a share in the prize money with the

entrance of Count Zborowski, a Polish nobleman, and Prince de Cysaria, a member of old-line French aristocracy. They will drive French mounts. Jules Goux, always a favorite, has a new car—a Schmidt Special; and Albert Guyot will be back with a Rolland-Pillain. Other entries include three German Mercedes cars. Two intrepid drivers of the Argentine will compete, and Pierre de Vizcaya, famous French sportsman, leads the Bugatti team.

Thirty-five cars, two more than are allowed to start, have been nominated officially for the race, of which number 10 will come from Europe.

THEATRES

Jack Pickford At State
Jack Pickford has returned to screen stardom in a blaze of luminous glory. The vehicle in which he rides back to the top crest of popular favor is "Garrison's Finish," an Allied Producers and Distributors Corporation release, and it is certainly an ideal beginning for a new series of Jack Pickford pictures.

This unusual feature opened a three day engagement at the State theater and a large audience made known its full approval in unmistakable applause. It is certain everyone liked Jack in the role of a dashing, debonair jockey. He ingratiated himself most decidedly in his natural romancing with Madge Bellamy, leading woman, who proves an excellent foil. Besides, he gave several occasions for genuine thrills in some of the more exciting scenes.

Osaka, Japan—Servant girls' wages have increased 1,800 per cent in the past 30 years. These maidens used to receive 83 sen or about 42 cents a month for their labors. Now they receive \$7.50 a month.

Now We Know Why People Have

Sore Feet

All in the Joints Says Maine Doctor

"What fools we mortals be." All these years we have been trying to help thousands of footsore people by bathing and powdering the skin when all the time the real trouble is in the bones, ligaments and cartilage.

Or, to be short, in the joints. There are 26 bones in the foot covered with cartilage and connected with ligaments and they have a tremendous amount of work to do.

The slightest strain on one little ligament from being "on the feet" too much inflames the whole foot, causing soreness and burning, aching and general misery.

"All this can be quickly proved," says a prominent Maine doctor whose name is known the world over.

Just try a remedy that compounded for joint troubles only—such as Joint-Ease, which every druggist carries, and see how quickly your sore, tired, inflamed and tortured feet will get well and strong and sturdy again. Forget your powdering and soaking and other makeshifts for just a few days and get rid of all foot misery by using Joint-Ease.

It's a stainless preparation that you rub on your fingers for about a minute and it soaks right in through skin and flesh away down to the joints—the real seat of all troubles.

And remember when Joint-Ease goes in all foot agony gets out—A tube for 60 cents—Every drug store, J. H. Lease Drug Co., Floding's drug store, and Bolger & French can supply you.

IT'S FLY SWATTING TIME SAYS STATE HEALTH OFFICIAL

By Paul Mason, State Department of Health

This is the time of year to swat the fly. Every female fly swatted out of existence now means the destruction of a potential 56 thousand thousand million (five quadrillion, 600 trillion) flies before Sept. 10.

And it is to be remembered that whereas the early fly (May or early June) is content with a few thousand germs on each of its legs, the late August and September fly carries germs to the number of millions on each leg. Therefore, the more flies swatted now, the fewer chances of fly-borne contagion three months from now.

As an enemy of mankind, the housefly, or typhoid fly—the carrier of disease—is said to be the most dangerous creature that exists. It has carried death to more human beings than all the beasts of prey and poisonous reptiles put together. It carries the germs of disease on its feet and in its stomach and distributes them wherever it walks, regurgitating them through its proboscis on articles of food, and depositing them everywhere in its excrement—the so-called "fly specks."

The most dangerous diseases spread by flies are typhoid fever, infantile diarrhea, tuberculosis and an-

thrax. Of course, these diseases also are carried through other agencies, but with each of them, if the fly-borne infection could be eliminated mortality from the disease would be vastly reduced. With public sanitation carried to its present high standard, fly-borne infection is the chief source of typhoid fever.

In 10 days each female fly is multiplied by thousands and the more garbage cans that are left exposed and the less sanitary conditions are, the more flies there will be to carry disease.

A fly does not wash its feet before attacking the butter or the baby's milk bottle and it leaves in its path a collection of germs which may start an epidemic of fever and which may result in many unnecessary deaths. Don't take a chance; it is better to be wise than courageous.

Following are a few simple rules to minimize the fly hazard; for fly prevention is much more successful than fly eradication:

Swat the first fly.
Destroy all rubbish and don't throw dishwater in the yard.
Own a tight garbage can and keep it dry and covered.
Keep your house well screened.
Do not buy food where flies are tolerated.
Strict cleanliness and immediate destruction of garbage are essential

throughout the year as well as during the summer.

Eliminate all manure piles and accumulations of decaying organic matter.
Swat the first fly.

LEETONIA KIWANIS CLUB WANTS AUTO SPEEDING STOPPED

Other Civic Problems Are Discussed At Meeting Of Club.

Leetonia, May 11.—(Spl.)—The Kiwanis luncheon at St. Paul's Sunday school chapel Wednesday evening was largely attended. Following the luncheon the time was devoted entirely to the welfare of the town and discussing local needs.

Delivery of express free to residents of the town, was urged, the club contending the shipment to Leetonia is large enough to warrant such a petition to be sent to headquarters. The club also urged that measures be taken to enforce the speed limit ordinance, especially the speeding on Columbia st which is carried to such a degree that women and children are in danger when crossing the street.

The Kiwanis club decided that it will stand back of any man who will make the arrest of any one violating the speed limit law.

A petition will be circulated to obtain signers requesting the Pennsylvania company to make Leetonia a flag stop for the early morning west-bound trains.

Supt. Moore, Teacher For 32 Years, To Quit County Post

Resigns Position To Head Public Schools At East Palestine.

John W. Moore, county superintendent of schools, who has been elected or a two-year term as superintendent of the East Palestine schools, has been teaching school for 32 years, all but four in Columbiana county.

For 19 years Mr. Moore, a brother of Common Pleas Judge James C. Moore, was superintendent of the Leetonia schools and for the last nine years he has been in charge of the county schools. For four years he was principal of a school in Youngstown.

When the county school system went into vogue through the enactment of a new state school code, the county board of education recalled Mr. Moore to this county and on Aug. 1, 1914, he organized and became head of the new system, with headquarters in Lisbon. He at once instituted a uniform set of text books in the county and reorganized the course of study in the rural schools.

Later he reorganized the High schools in the country districts, had many of the rural schools repaired and re-seated and their sanitary systems standardized. His reorganization also supplied a uniform course of study in all two and three year High schools to conform to the state requirements.

The county fair exhibits of the rural schools were the result of Supt. Moore's efforts and he also established the county eighth grade commencement, held annually. The county normal school was another accomplishment during Mr. Moore's regime and he has carried it on successfully for four years. More than 300 teachers have been graduated from this school.

The Junior Red Cross, of which Miss Mabel Marquis of Lisbon has been secretary, was established through Supt. Moore's efforts and it has gained a national reputation.

Supt. Moore has had a force of two assistant superintendents, a secretary and an attendance officer.

"I could not have asked for any better co-operation from any set of men or women than I have received from the teachers employed in the county's schools," Mr. Moore stated Friday.

John W. Moore was born in Salineville and has spent practically all his life in Columbiana county. He now resides in Leetonia.
